

Helping low achievers in Maths workshop KS1 & KS2

TUESDAY 14TH JUNE- 1.15PM – 3.30PM

Children who struggle with numeracy can often be supported in their learning by using specific strategies and apparatus to help them make connections with abstract concepts.

This course is an introduction to strategies teachers can use to help children have a sense of number and can apply their learning with confidence and enjoyment.

They learn to develop conceptual understanding and strong visual images to help derive calculation strategies. The course will also look at the how the language and vocabulary of mathematics needs to be made explicit to ensure children's mathematical understanding.

Course suitable for: Any teacher or Teaching Assistant who is in KS1 & KS2.

Course Costs: £80 for alliance members

Course Costs: £100 for non-alliance members.

This course includes a free visit to Sharley Park Community Primary School.

To secure a place on the course please email:

a.virdee@longwood.derbyshire.sch.uk

Please park in the co-op car park on Wellington Street, a short 2 minute walk from our offices. The 3 hour stay is for free.

Helping low achievers KS1 & KS2.

Be confident in
supporting low achievers
in maths

Have experienced a range
of practical activities to
take back to your
classroom.

Have an understanding of
the concrete, pictorial
and abstract model of
learning.

A half day course
giving an overview of
strategies for low
achievers

Practical examples
